

## **Health Care Without Walls**

### **West Street Clinic Grand Opening Celebration**

*Become an Exclusive Sponsor of the clinic*

Celebrate the opening of our first brick and mortar health clinic at 41 West St. in Boston!

With nurses, volunteer physicians, and community health workers, HCWW is able to provide vital and compassionate care every day to women who rely on Boston area shelters, giving thousands of women and children the means to move forward to better health, longer lives, a sense of purpose, and improved self-worth.

Support our new clinic with a donation and the opportunity to be recognized as the sole sponsor of the Clinic as a whole or a particular clinic room. Memorialize your support and keep the clinic doors open with a personalized plaque that tells women you are there to help, now and in the future.

We have so much to give — love, hope, courage, inspiration, dignity, and compassion. Join us in showing the women who need our care that they are not alone.

### *Join us in Celebration*

Wednesday, October 20, 2021  
11:00 am—2:00 pm | Hyatt Regency, Boston

The Grand Opening Celebration will feature a light lunch and a program including our official Ribbon Cutting and remarks from Health Care Without Walls Founder Dr. Roseanna Means and invited guest speakers.

See for yourself how we are able to improve the lives of women, thanks to your continued support. You can participate in activities that show first hand where we work—take a tour of our facility, and roll up your sleeves and help:

- Share a message of inspiration welcoming clients to the clinic.
- Put together kits of essential items women need including toiletries, socks, and more. These kits are distributed to visitors of the clinic.
- Are you a knitter? Come and knit, and pick up patterns for hats, scarves, baby blankets and afghans that offer love and warmth to our clients.
- Sit and chat with some of our clients and staff to learn first hand about the struggles and successes they face to overcome homelessness.
